Wöden Kusner

Mathematics educator | quantitative support and peer-learning programs
wkusner@gmail.com | wkusner.github.io | Appleton, WI

Summary

Mathematician and teacher (Ph.D., University of Pittsburgh) with teaching experience at five universities since 2009, now directing the Quantitative Resource Center at Lawrence University. Builds peer-learning programs, supports students who find mathematics difficult, and works across departments so that quantitative courses and student support fit together. Holds certificates in college teaching and in diversity and inclusion.

Areas of Strength

- Peer tutoring and learning-assistant programs: design, hiring, training, mentoring, and scheduling.
- Individualized support for students, including case-managed students; open office hours for students, faculty, and staff.
- Course design for introductory mathematics; ALEKS placement and adaptive-learning courses.
- Teaching probability, statistics, and calculus from preparatory through advanced undergraduate levels.
- Mentoring undergraduate research, directed studies, and graduate-school preparation.

Experience

Director, Quantitative Resource Center; Adjunct Assistant Professor of Mathematics 2025–present
Lawrence University

- Direct quantitative peer tutoring for the college: recruit, train, and mentor peer tutors and coordinate support with departments.
- Created the Quantitative Learning Assistant program (2025): wrote the position description; hire and schedule specialized tutors, each paired with a course and its instructor.
- Provide individualized support for case-managed students; hold open office hours for students, faculty, and staff; advise on ALEKS math placement.
- Presented on the Quantitative Resource Center and perspectives on mathematics at a Center for Teaching Excellence Lunch and Learn (2025); part of Lawrence's team at a Carleton College workshop on institutional approaches to quantitative skill support (2025).
- Teach introductory mathematics (Foundations in Math, Preparation for Calculus, Calculus) and supervise directed studies.

Instructor of Mathematics 2023–2025
Lawrence University

- Coordinated peer tutoring and math support for introductory mathematics.
- Designed the ALEKS-based course structure and exercise pack for Preparation for Calculus, later used by colleagues teaching the course; supervised undergraduate teaching assistants.
- Mentored a summer undergraduate research fellow (discrepancy theory) and ran a graduate-school preparation program (GRE mathematics practice and applications) for three students.

Assistant Professor (non-tenure-track) 2020–2022
University of Georgia

- Taught Calculus I and II in a coordinated multi-section program; served on the calculus exam committee.
- UGA Teaching Academy Fellow; co-organized the Math Learning and Teaching Seminar; member of the instructional corps recognized by the 2022 Regents' Teaching Excellence Award.

Assistant Professor (non-tenure-track) and Postdoctoral Associate 2017–2020
Vanderbilt University

- Taught probability and statistical inference, mathematical statistics, and multivariable calculus; supervised and mentored teams of undergraduate teaching assistants and graders.
- Mentored undergraduate research (including a Highest Honors thesis) and served on honors and dissertation committees.

FWF Postdoctoral Researcher and Lecturer 2014–2017
Graz University of Technology, Austria

- Taught a course on packings, lattices, and configurations; assisted in higher analysis.

Teaching Fellow and Teaching Assistant 2009–2011
University of Pittsburgh

- Led recitations for calculus, business calculus, foundations, algebra, and topology courses; taught Business Calculus as instructor of record.

Education and Certificates

Ph.D., Mathematics, University of Pittsburgh 2014
B.S., Mathematics, Haverford College 2007

Certificate in Diversity and Inclusion, University of Georgia 2021
STEM Teaching Specialization, Vanderbilt University 2020
Certificate in College Teaching, Vanderbilt University 2019
Community Engaged Learning faculty cohort, Lawrence University 2026–2027
REFLECT peer observation of teaching, Lawrence University 2024

Mentoring, Service, and Scholarship

- Letters of recommendation for more than 20 students (2018–2025): graduate school, research programs, medical school, transfer and study abroad, employment.
- LS-PAC MODELS mentor (2021–2023); leadership committee, Haverford Multicultural Alumni Action Group (2020–2024).
- Community: Historic Central Neighborhood Association (Appleton), Safe Routes to School subcommittee, Fox Valley Data Exchange working group.
- Research in discrete geometry: 7 peer-reviewed papers, 37 talks; referee for *Annals of Mathematics* and other journals; NSF Graduate Research Fellowship reviewer (2022).
